YOUR PREGNANCY JOURNEY

Week 12-16: Meet with our Midwifery Advisor team for the first time, discuss any worries or concerns, if you need advice on packages/our services, including our VIP packages, layout the plans for any antenatal education or wishes for ongoing support and contacts for throughout your pregnancy.

Week 24- 26: Chat with our team about your pregnancy so far, book on to our antenatal class if you haven't already. Start to consider your birth wishes and options including your complimentary tour of the maternity services within the hospital and meet our team on duty.

Week 30-32: Take part in our antenatal education programmes. The options for this are within this booklet.

Week 34-36: Complete your birth preferences with our team and learn more about your options for your birth. It is also important at this time to consider your plans for once baby arrives, including booking our midwife homecare services.

Week 37-40: Feel free to drop in any time for support as your due date approaches. Consider your 37 week breastfeeding preparation appointment with Dr Sabeen Adil.

Please get in touch with Midwife Advisory Team if you would like to sign up for our “Pregnancy Journey Package” and to discuss bookings and bundle pricing.

HOW OUR MIDWIVES CAN SUPPORT YOU THROUGH YOUR PREGNANCY JOURNEY

Our British Trained Midwifery Advisor Team is here to support you through your pregnancy alongside your obstetrician’s care to provide a holistic care model to be a source of emotional and physical support throughout your pregnancy from finding out you are expecting to giving birth to your baby and supporting you through life with a newborn.

This Booklet will provide you with our current options for antenatal education and support options throughout pregnancy and beyond.

Please don’t hesitate to get in touch with our team below via call or whatsapp to see how we can support your journey into parenthood & beyond:

PREPARING FOR BREASTFEEDING

Breastfeeding is natural, but it is also a learned skill for both mother and baby. Our **Antenatal Breastfeeding Class** is designed to help you feel confident, informed, and prepared before your baby arrives.

Why is this class important?

Understanding what to expect can make your breastfeeding experience smoother and more positive. It's normal to have questions – this session provides practical knowledge, reassurance, and early support.

What will you learn?

In this interactive two-hour session led by Lactation Team, you will learn about:

Baby's behaviour and needs

Importance of breastfeeding for everyone

- 🌸 The magical first hour of life
- 🌸 Building a close and loving relationships with your baby
- 🌸 Breastfeeding positions with a deep latch
- 🌸 How to make sure baby is getting what they need
- 🌸 Different types of mother's milk
- 🌸 Expressing and storing breast milk
- 🌸 Increasing milk supply
- 🌸 Preventing and managing of sore nipples and engorgement
- 🌸 Methods of giving milk to baby
- 🌸 How partners and family can support
- 🌸 And many more ...

We believe every mother deserves to feel supported and informed.

Join us and take the first step toward a confident breastfeeding journey.

HYPNOBIRTHING ANTENATAL COURSE

Another option for a more in depth antenatal education that we recommend you start around 30 weeks is our Hypnobirthing course.

The idea is that... Your body is designed to grow a baby and give birth. Trusting in your body and the natural instincts and processes allows you to feel empowered throughout the birthing process.

The Complete Hypnobirthing Programme Includes:

The Basic Physiology of Birth

The positive belief that giving birth can be the most wonderful experience a woman and her birth partner will experience

How to release any fears that may in some way be associated with child-birth

-  To look forward optimistically to a gentle, safe, calm, comfortable and stress-free birth
-  How to relax quickly and deeply using breathing techniques, visualisations and deep relaxation
-  How to stay calm, relaxed and in control throughout your labour
-  How to trust your body to work naturally & in harmony with your baby
-  How to promote the production of your birthing hormones
-  How to prepare your birth plan so that you can be better informed and feel in control of your birth
-  The knowledge and power to navigate birth should you require intervention or assistance
-  Positions to help you birth your baby more easily and comfortably
-  Breathing techniques that work with your body to maximise your body's own natural expulsive reflex
-  Added knowledge and discussion of biomechanics for birth and baby care for yourself and birth partner
-  Birth partner focus enabling confident and empowered support in labour

PRICE:

2200aed +VAT PER COUPLE FOR FULL COURSE

Running over 1 month - 4 sessions total - 6-8pm every Tuesday Evening at Kings Dubai Hills Hospital.

Please contact Midwife Advisory Team for more information or to book.

Scan here to book
the appointment

BIRTH WISHES CONSULTATIONS

Our British trained midwives also offer a 1:1 Bespoke Birth Wishes consultations for you and your birth wishes to talk through all your options.

It will be discussed and created specifically for your pregnancy, including your history and any factors needing to be considered and make a safe and informed birth preferences document together.

The benefits of making a birth preferences list with an experienced midwife are

To be well informed about your options and for decision making through the birthing process

Enable you to have a positive birth experience by ensuring you have the elements that are most important for you

Valuable for everyone whether you plan for vaginal or caesarean birth and even if it is not your first baby

Help you to feel empowered to advocate for your wishes alongside your clinical team of nurses, midwives and your obstetrician

We advise you meet with us to complete this session around 34 weeks of pregnancy.

PRICE:

275AED PER COUPLE

Approximately 1 hour to discuss all and answer any questions.

You will be emailed your bespoke birth preferences document after the appointment.

We will also upload your document to your online notes so your doctor can view and keep on a folder in the labour room so easily accessible when you attend in labour or for your planned caesarean.

Please contact Midwife Advisor Team or use below link to book in for your birth wishes appointment.

PAEDIATRIC FIRST AID COURSE

Our accredited and qualified life support trainer Sonia Fernandez will support you through our certified paediatric first aid programme where you will learn important life saving skills to ensure you feel well prepared to care for your new born if an emergency situation was to arise.

The course covers many stages from new born to infant, toddler, preschool and school age children.

Refreshments and a light lunch provided.

Includes:

-  Recognising an emergency in your baby
-  Respiratory Compromise
-  Respiratory Arrest
-  Cardiac Arrest
-  Airway Obstruction (Choking)
-  Bleeding (Internal & External)
-  Burns
-  Falls & Injuries
-  Seizures

PRICE:

400AED + VAT FOR 1 PARTICIPANT

700AED + VAT FOR COUPLES

Please contact Sonia directly to join her course and for next available dates and times on 050 392 3784

COMMUNITY MIDWIFE HOME VISITS

Our experienced British Trained midwives can also come out to your home and support you after your baby is born on a number of visits to do clinical checks and provide emotional support, whilst answering any questions you may have about yourself or your baby.

Includes:

-  Top to toe clinical check of mother + baby
-  Self Care Tips for postnatal period
-  Signs & Symptoms of an unwell mother or baby and actions to take
-  Referrals to paediatric, physiotherapy, lactation and other specialists
-  Safe Sleeping
-  Infant Feeding Support

OPTIONS:

1 visit - 550 AED +VAT

2 visits - 900 AED

4 visits - 1700 AED

Please note these packages are non-refundable.

These visits can be arranged individually and are flexible to suit your needs and when you would like your visits to be scheduled. If you take the 2 visit package but decide you'd like to add more, this can also be arranged.

Our Community Midwives have experience in the UK community model of care and are trained to support women in the 4th trimester from physical recovery to mental wellness and everything in between, for upto 6 weeks post birth.

We make sure you have all the support you need, whenever you need it.

Please Contact Midwife Advisory Team to book your home care packages.

Please talk to the Midwife Advisory Team about your location and the availability of visits in your area.

BABY MASSAGE CLASSES

Our certified infant massage instructor who is also one of our British trained midwives runs a baby massage course here at Kings based at Dubai Hills Hospital.

Massaging your baby is a great way to bond, aiding communication, nurturing behaviours and relaxation as well as learning more about your baby including their behaviours and cues which is essential for healthy sensory and language development of babies.

Baby massage also has been proven to reduce colic and digestive issues, increase positive hormones for you and your baby. The massage course draws from both the Indian and Swedish massage traditions as well as incorporating principles from yoga and reflexology.

It is also a great way to connect with other new mums and seek support from a qualified professional.

Our 4 week programme is as below:

Week 1: Legs & Feet

Week 2: Stomach & Chest

Week 3: Arms & Hands

Week 4: Face & Back

Week by week we will work on techniques for different areas, this is because for babies it will then not overstimulate them and aid increased relaxation.

PRICE:

800AED + VAT FOR FULL 4 WEEK COURSE

Please Contact Midwife Advisory Team or use below link to book:

MOTHER SUPPORT GROUP

Our Mother Support Group is a free monthly gathering designed to support you through the early years of motherhood. Each session is led by our lactation consultants, with guest speakers from different hospital departments.

Who is it for?

All mothers with babies from birth to two years, whether you're looking for guidance, reassurance, or simply hoping to connect with other moms who are on the same journey.

What can you expect?

A calm, welcoming, and safe space where you can share experiences, ask questions with confidence, and receive trusted guidance.

Topics include:

-  Maternal wellbeing
-  Your baby's growth and development
-  Speech and language development
-  Introducing solid food at six months
-  Oral health
-  And other parenting- related topics

Motherhood is a beautiful journey, and you don't have to walk it alone.

For booking and more details, please scan the QR code below.

LACTATION CONSULTANT SERVICES

Our lactation consultants, Dr Sabeen Adil and Zahra Mokhber, offer a range of support throughout your breastfeeding journey.

This Includes:

Preparing for Breastfeeding

Antenatal breastfeeding classes are available during pregnancy. You may attend from the second trimester onward.

Inpatient Support

During your hospital stay, trained midwives and nurses will support you with the early stages of breastfeeding. Our lactation team is also available for one-to-one bedside visits when possible.

Lactation Clinic

Personalized one-to-one consultations are available during pregnancy and after birth. Support includes guidance on feeding challenges, establishing milk supply, returning to work, colostrum harvesting, and any other feeding concerns. The clinic runs on weekdays and welcomes both mothers and babies.

Lactation support by email

Ongoing guidance is available via email for any questions or concerns between visits. This service offers a convenient way to clarify doubts at any stage of your breastfeeding journey.

Mother Support Group

Free monthly gathering where mothers connect, share experiences, and receive guidance from experts across hospital departments.

For personalized lactation support you can reach:

Dr Sabeen Adil

050 5592898

Available 9:00 am - 5:00 pm weekdays

Zahra Mokhber
